

Lecture 3 Quiz Questions and Answers

1 Select the correct statement related to block diagram reduction:

check for the blocks connected in series and simplify

☐ 0%

check for the blocks connected in parallel and simplify

☐ 0%

transfer function present in the single block is the transfer function of the overall block diagram

☐ 0%

1 and 2

☐ 11%

all of the above ☒

☐

2 The overall transfer function from block diagram reduction for cascaded blocks is

sum of subsystem transfer functions

☐ 0%

product of subsystem transfer functions ☒

☐

difference of subsystem transfer functions

☐ 11%

1 and 3

☐ 17%

none of the above

☐ 0%

3 The overall transfer function of two blocks in parallel are

sum of subsystem transfer functions ✓

product of subsystem transfer functions

division of subsystem transfer functions

2 and 3

none of the above

4 If the response to simultaneous control inputs and disturbances is required, they cannot be evaluated

True

False ✓

5 A disturbance to a plant is incorporated by splitting the overall transfer function of the plant and amplifier

True ✓

False
